## 2-8-2016 begins the **Year of the Fire Monkey 4713**

As the Monkey is known for being clever, intelligent and resourceful, it should be a year of new innovation and invention. The Monkey is a problem solver but he can also create them. This is a time of risk taking and there is the potential of sudden changes of all kinds (don't try to keep a Monkey down). It is important to keep your sense of humor in the year of the unpredictable Monkey.

It is always fun to name a few famous Monkeys. These include Julius Caesar, Daniel Craig, Bette Davis, Jake Gyllenhaal, Eleanor Roosevelt, Diana Ross, Will Smith, Elizabeth Taylor, Leonardo da Vinci, and George Lucas.

Prior to the Lunar New Year, it is a good idea for all of us to 'clear house' both physically and metaphorically. In other words clean up outstanding debts, issues and generally complete things before the lunar New Year. All signs will do well to perform the 'Golden Cicada Sheds Its Shell' ritual, along with 'Welcoming in the Wealth God' and 'Changing the Chi of the Environment.'

Each zodiac animal has its own qualities that are consistent year to year, yet every sign will be influenced by the Monkey's energy this year. [Some insights for each zodiac animal in 2016 can be found by clicking here.](#)

Please note that fortunes can be reduced or enhanced with Feng Shui, rituals, meditations and transcendental adjustments and that all people have their own karma to consider. A personal, in depth reading will reveal more specifics for each month. Remember that even the luckiest signs (the Rat and Dragon this year), have their cautions and the unluckiest (the Tiger and Pig) have their bright spots.
